

What my project must do:

Write a list of the things that your idea must

Do to solve the challenge

1. Show quality and craftsmanship.

---

2. Have four thumbnail sketches. (Before construction can start)

---

3. Have final sketch that looks like final solution (include dimensions). Must be included in brochure

---

4. Be powered by no more than two (supplied) electric motors.

---

5. The motors must be able to removed and reinstalled.

---

6. Have a number and appropriate product name.

---

7. Have a remote control box for switching devices.

---

8. Have no more than 20% pre-made components.

---

9. Contest official must approve all pre-made components

---

10. Compete in the final "Car-Bot" contest.

---

11. Any "Battle-bot" play will result in automatic disqualification.

---

12. Be accompanied by a product brochure.

---

13. You may have ONE partner for this project.

---

14.

---

15.

---

16.

---

17.
